

Connected2Fiber

BUILDING INTELLIGENCE

Connected2Fiber's Building Intelligence Module is your key to unlocking who and what is inside the buildings that you are connected to, and your NearNet target locations, enabling you to maximize your network utilization and drive top-line revenue.

GEOGRAPHICAL INTELLIGENCE

In-depth data on tenants and buildings, essential for strategic planning and driving top-line revenue.

RESEARCH SIMPLIFIED

Every tenant mapped via their social media presence and corporate website for easy research and intelligence

STRATEGIC INSIGHT

Access to information on competing networks for OnNet and NearNet Buildings.

MARKET PERSPECTIVE

Competitive intelligence as the basis for setting your market based pricing within your area.

Call or visit our website, and schedule a custom demo to see how our Building Intelligence Module can help your business.
