

Connected2Fiber

## NETWORK FINDER

Our Network Finder module allows you to search for the LEC (local exchange carrier), cable company, OnNet and NearNet fiber providers by location and get a profile of who those companies are - with over 2,000 U.S. network operators profiled.

### MARKET INTELLIGENCE

Understand the network industry landscape, including network profiles for ILECs, CLECs, utilities and municipalities.

### ACTIONABLE INSIGHTS

Help understanding who to partner with so you get the results you want.

### SALES ACCELERATION

Help your clients get answers they need on who connects the locations that matter to them.

### LOCATION INTELLIGENCE

Find out who is connected where to enable you to make the best decisions for your business needs.

### POWERFUL SEARCH

Our search is intuitive and fast. Who has what, where... it's that simple.

### ACCESSIBLE KNOWLEDGE

Complete access to network industry veterans to help you navigate your design, partner and pricing decisions.

Call or visit our website, and schedule a custom demo to see how our Network Finder Module can help your business.
